

# Data sheet

Product code : WLR-5100

Product name : Wi-Fi router X5 N600

EAN code : 8716502026449

## Create a wireless network with excellent speed on two frequencies, exceptional range and comprehensive protection against cybercrime

With this router you can easily create a wireless network and share a broadband Internet connection, files and peripheral devices. The router convinces with state-of-the-art looks and innovative design. Matt, shiny and textured surface finishing in white give the router a high-end touch. Air vents all around allow for maximum air circulation. The included stand allows the router to be positioned either standing up, mounted on the wall or in the classic desktop position.

This solution has Sitecom Cloud Security: the security integrated in the router protects all the devices in your network against cybercrime when surfing the Internet. Simply start using the free six-month subscription and use antivirus/antimalware, antiphishing, protection against malicious websites (URL blocking), ad blocking, exploit prevention and the Do-No-Track option.

The router has a range which is optimized for three floors, the garden and the balcony and wireless speed of up to 300 Mbps. It supports a wired speed up to 1000 Mbps and is ideal for high-speed internet. Enjoy the benefits of the fact that this router simultaneously uses the standard 2.4 GHz frequency and the less congested 5 GHz frequency for optimal wireless performance of heavy applications. The router is suitable for heavy applications such as watching YouTube, streaming music and videos and downloading files.

Make use of the integrated USB port and connect external hard disks, printers or webcams and share the device with all users in the network. Print from any location in the house or back up files from any computer to the connected external hard disk.

The router comes secured with an individual pre-set WPA2 security password. You can create a secure home network with just one push of the OPS (One Push Set-up) button.

This product comes with the extensive 10-year Sitecom warranty. Simply activate the long-term warranty by registering your product within 3 weeks of purchase.

works with **Windows® / Apple / Android™** | Compatible with all ADSL providers

**10 years warranty**
